Draft Amendment to Bathurst Regional Development Control Plan 2014 - Ashworth Drive Land Use Buffer

Council has prepared an amendment to *Bathurst Regional Development Control Plan 2014 (DCP 2014)* in relation to land known as Lot 1 DP 1130765, 2 Ashworth Drive Kelso. The amendment seeks to remove an existing 25-metre-wide "Land Use Buffer" identified on the northern side of the land and introduce the following controls:

- A minimum 10-metre-wide building setback from the northern and western boundaries adjoining existing residential properties.
- A minimum 3-metre-wide "Landscaping Buffer" alongside the northern and western boundaries adjoining existing residential properties, including controls relating to the design, location, spacing and treatment of the landscaping.
- A maximum building height limit of 691.5m AHD to ensure that any future development would not exceed the ridge line of the existing "Total Tools" building.
- Controls relating to the design, external colour scheme, materials and signage of any new commercial buildings erected on the land.
- Controls relating to the design and location of loading/unloading facilities and manoeuvring areas associated with service vehicles, to minimise noise impacts on the surrounding residential area.
- Requirement for the preparation of a noise impact assessment for any future Development Application involving "higher impact" land use(s) and/or operations occurring outside of ordinary business hours.
